

PHAM HUYNH KHANH LINH

Security Operations Center Analyst Tier 1

linh-999.github.io phamkhanhlinh103@gmail.com 0392980607 Ho Chi Minh City, Vietnam

CARRER OBJECTIVE

Short-term Goal: Seeking a Fresher SOC Analyst position to apply my knowledge of SIEM monitoring, log analysis, alert triage, and incident documentation in a real SOC environment

Long-term Goal: In the next 2 years, I aim to become a professional SOC Analyst by improving my skills in threat detection, incident response, and threat hunting, while pursuing SOC-related certifications such as CompTIA Security+, CySA+.

EDUCATION

Ho Chi Minh City University of Technology and Engineering - HCMUTE

Major: Information Security | GPA: 3.12/ 4.0

Academic Activities:

1. Achieved Top 10 in university-level Capture The Flag (CTF) competitions
2. Participated in scientific research activities

CERTIFICATE AND TRAINING

TOEIC 660/990

Completed SOC Analyst internship at Hitek Solutions

Completed the CyberJutsu SOC Analyst & Blue Team Training Program

PROJECTS AND PRACTICAL EXPERIENCE

Wazuh-Based Security Operations Center Platform | SOC Analyst Team – Hitek Solutions

- Deployed and configured Wazuh Manager, agents, dashboards, and security monitoring rules.
- Implemented detection use cases for USB activity, file monitoring, and privilege escalation.
- Conducted alert triage, log analysis, and incident investigation using Wazuh SIEM.

Security Operations Center Analyst Trainee | CyberJutsu Academy

Dec 2025 – Feb 2026

- Performed Splunk log analysis, alert triage, and basic root cause analysis for simulated incidents.
- Investigated Windows Event Logs, EDR logs, and network traffic to identify suspicious activities.
- Documented findings and applied SOC Level 1 incident response workflows.

Enterprise Network Security Architecture Design | Cisco, VPN, VLAN, Firewall, IPSec, AAA Mar 2026 – Apr 2026

- Designed a multi-site enterprise network using Core–Distribution–Access architecture.
- Implemented VLAN segmentation, IPSec VPN, ACLs, Port Security, DHCP Snooping, and centralized management.
- Designed Data Center, DMZ, WAN connectivity, and high-availability network services.

Multi-Agent Pentest System | CrewAI, LLM, OWASP Top 10

Feb 2026 – Apr 2026

- Developed an AI-powered multi-agent system for automated web security assessment.
- Orchestrated agents for reconnaissance, vulnerability analysis, and reporting.
- Mapped vulnerabilities to OWASP Top 10 and provided remediation recommendations.

TECHNICAL SKILLS

SIEM & Monitoring

- Wazuh, Splunk, ELK Stack
- Alert Triage, Log Analysis, Incident Documentation

Security Investigation

- Windows Event Logs, IOC Analysis, Event Correlation
- IP/Domain Reputation Analysis, Threat Investigation

Network & Systems

- TCP/IP, DNS, VLAN, VPN, Firewall, IDS/IPS
- Linux, Windows Server, Active Directory

Tools & Frameworks

- Wireshark, Snort IDS, Docker, Git
- MITRE ATT&CK, OWASP Top 10
- Python, PowerShell, Bash

ACTIVITIES & SOFT SKILLS

Member of Faculty of Information Technology Youth Union; supported IT workshops, lab setup, software installation, and technical assistance for lecturers.

Technical Documentation, Presentation, Communication, Teamwork, Problem Solving, AI-assisted Documentation.
